

Step into the Cloud – Power Up your NAV

Thousands of Microsoft Dynamics ERP users are already running on and benefitting from Azure and Dynamics 365. For some Microsoft Dynamics Partners, however, this is a big leap. They find themselves struggling to prepare for Dynamics 365 Business Central and at the same time address the customers' cloud-related demands.

SaaSPlaza have broken this leap into Dynamics 365 Business Central into two proven steps. We work alongside Dynamics partners to learn, grow, and thrive by cloud-enabling their ERP implementations. Our two-step approach helps Dynamics NAV partners to:

- ◆ Enter the Microsoft Cloud world with confidence and leverage the power of Azure for NAV implementations;
- ◆ Increase their share of wallet and meet their customers' ever-changing needs;
- ◆ Grow their business and deepen customer relationship;
- ◆ Prepare for and accelerate onto Microsoft Dynamics 365 with NAV Extensions.

Cloud Powered

SaaSPlaza's Dynamics NAV on Azure services enable you to easily migrate current customer workloads onto Azure and empower your current NAV solutions with the flexibility and functionality of cloud.

Partner benefits to work with SaaSPlaza, at a glance:

- ◆ Partners retain Microsoft Digital Partner of Record designation;
- ◆ Partners own the customer relationship and keep focus on NAV functionality;
- ◆ SaaSPlaza delivers 24/7 globally supported and financially backed NAV on Azure cloud;
- ◆ SaaSPlaza's Dynamics NAV Cloud is priced per user, per month;
- ◆ Customizations and/or ISV add-ons are supported;
- ◆ Marketing and Sales support for joint Go To Market;
- ◆ Empowers partners to sell additional Azure Managed Services.

Migrating your customers to a Dynamics as a Service solution with SaaSPlaza's expert help will allow you to keep running your business the way you have been doing, while your customers get a coveted cloud solution that preserves the functionality and customizations. SaaSPlaza's Cloud experts deploy, manage and monitor your application cloud. So, your business can fully focus on customers, to stay ahead of the competition and simultaneously prepare for Dynamics 365 Business Central.

Cloud Accelerated

Dynamics 365 Business Central gives a wealth of ERP functionality to your customers. SaaSPlaza supports partners in their endeavor to prepare the business and IP for Dynamics 365. By having close ties with Microsoft, we are among the first to learn about the next steps regarding Dynamics 365 and share this information with our partners. Moreover, SaaSPlaza help Dynamics partners to develop and test new NAV Extension codes in the easiest possible way. SaaSPlaza navigates a customized path for partners to Dynamics 365 to accelerate their business.

Ready to power up your Dynamics NAV business and step into the Cloud?
